SUMMARY

Front-end developer with a diverse background spanning warehousing to technical support. Earned a certificate in front-end web development from the edX Skills Bootcamp with A+ grade. Enthusiastic about problem-solving and exploring new technologies, with a proactive mindset towards continuous improvement.

TECHNICAL SKILLS

HTML | CSS | JavaScript | Bootstrap | React.js | Node.js | jQuery | Jest | APIs | Firebase | Git | GitHub

PROJECTS

ANSWERSPHERE | github.com/nyitrai87/answersphere

This application offers users a captivating experience of seeking answers, receiving daily affirmations, and resolving binary dilemmas with the enchanting guidance of a magical pendulum.

- Responsibilities: I implemented the contact form and played a pivotal role in implementing authentication through Firebase and storing user data in Firestore, showcasing adeptness in backend development. Furthermore, I actively participated in the design and styling process of the website. Finally, I oversaw the deployment of the website on Netlify, ensuring seamless continuous deployment.
- Tools: React, Bootstrap, JavaScript, CSS, Node.js, EmailJS, OpenAI API, Firebase, Netlify

BOOK TRACKER APP | github.com/nyitrai87/book-tracker

A book tracker web application to search for books, build a virtual collection, providing a responsive and user-friendly interface across devices.

- Responsibilities: I successfully implemented book search functionality, allowing users to add books to their collection. Additionally, I ensured data persistence by storing the collection locally. Furthermore, I made significant enhancements to the design and styling of the application.
- Tools: HTML, CSS, Bootstrap, JavaScript, jQuery, Google Books API, Free Dictionary API

TEAM PROFILE GENERATOR | github.com/nyitrai87/team-profile-generator

This team profile generator is a Node.js application that gathers user input data by using the Inquirer NPM library and writes the collected data into a HTML file.

- Responsibilities: I implemented the whole application except the bootcamp provided starter code.
- Tools: HTML, CSS, Bootstrap, JavaScript, Node.js, Jest, Inquirer NPM library

EXPERIENCE

TECHNICAL SUPPORT ADVISOR | Digital Space | 03/2022 - 07/2023 | Newark, UK

- Monitored and tested broadband/phone lines to ensure optimal performance and connectivity for customers and partners.
- Reported and tracked faults with suppliers, effectively resolving issues in a timely manner.

- Maintained regular contact with customers and partners, providing exceptional support and addressing any concerns or inquiries.
- Handled inbound and outbound calls, delivering prompt assistance and resolving technical issues for customers.
- Assisted customers with end user checks on the equipment, ensuring seamless functionality and user satisfaction.
- Performed basic checks on router configurations remotely, optimising network performance for clients.
- Efficiently worked on tickets, prioritising tasks to meet deadlines and deliver high-quality technical support.
- Completed administrative tasks to support smooth operations within the technical support team.

COVID-19 VACCINATOR | Allied Pharmacies | 12/2021 - 02/2022 | Newark, UK

- Administered Covid-19 vaccines to patients, contributing to the fight against the pandemic.

CUSTOMER ASSISTANT | Morrisons | 12/2021 - 12/2021 | Newark, UK

- Streamlined order picking process for home delivery and click & collect, resulting in improved efficiency in customer satisfaction.
- Implemented and managed click & collect procedure, ensuring smooth operations and timely customer pickups.
- Maintained optimal product organisation on the shop floor, enhancing customer experience and facilitating easy access to merchandise.

WAREHOUSE OPERATIVE | Currys Plc (via agencies) | 10/2020 - 10/2021 | Newark, UK

- Operated Low Level Order Picker (LLOP) and Powered Pallet Truck (PPT) in compliance with safety regulations.
- Executed order fulfilment tasks, including picking and packing of orders to ensure timely delivery.
- Managed loading and unloading of trailers, ensuring efficient and safe handling of goods.

EDUCATION

CERTIFICATE in Front-end web development | edX Skills Bootcamp | 2024 | Grade: A+ (100%)

An intensive program focused on gaining technical skills in HTML5, CSS3, JavaScript, Bootstrap, jQuery, Node.js, third-party and server-side APIs, test-driven development, and React.

UNFINISHED BSc in Engineering Information Technology | University of Debrecen | 2013 - 2018
