SUMMARY

Front-end developer with a diverse background spanning warehousing to technical support. Earned a certificate in front-end web development from the edX Skills Bootcamp. Enthusiastic about problem-solving and exploring new technologies, with a proactive mindset towards continuous improvement.

TECHNICAL SKILLS

HTML | CSS | JavaScript | Bootstrap | React.js | Node.js | jQuery | Jest | APIs | Git | GitHub

PROJECTS

BOOK TRACKER APP | github.com/nyitrai87/book-tracker

A book tracker web application to search for books, build a virtual collection, providing a responsive and user-friendly interface across devices.

- Responsibilities: I implemented the possibility of searching for books and adding books to the collection, also to preserve data by storing the collection in the local storage. I have also added a lot to the design and styling.
- Tools: HTML, CSS, Bootstrap, JavaScript, jQuery, Google Books API, Free Dictionary API

WEATHER DASHBOARD | github.com/nyitrai87/weather-dashboard

A weather dashboard application showcasing my proficiency in utilising APIs and local storage to provide users with the current weather and 5-day forecast for any city worldwide.

- Responsibilities: I implemented the whole application.
- Tools: HTML, CSS, Bootstrap, JavaScript, jQuery, OpenWeatherMap API

TEAM PROFILE GENERATOR | github.com/nyitrai87/team-profile-generator

This team profile generator is a Node.js application that gathers user input data by using the Inquirer NPM library and writes the collected data into a HTML file.

- Responsibilities: I implemented the whole application except the bootcamp provided starter code.
- Tools: HTML, CSS, Bootstrap, JavaScript, Node.js, Jest, Inquirer NPM library

EXPERIENCE

TECHNICAL SUPPORT ADVISOR

03/2022 - 07/2023

Digital Space

Newark, UK

- Monitored and tested broadband/phone lines to ensure optimal performance and connectivity for customers and partners.
- Reported and tracked faults with suppliers, effectively resolving issues in a timely manner.
